October 18, 2016

Dear Parents or Guardians,

Assumption College uses CareMonkey, a health and safety system that stores accurate and up-to-date medical information and contact details, provided by you, for your child.

The system also alerts you about coming excursions and camps, allows you to authorise your child’s participation and confirm or update their medical and contact information.

You can use a PC, laptop, tablet or smart phone to enter the details including:

- Emergency and medical contacts.
- Medical details about asthma, anaphylaxis, allergies, seizures, diabetes etc.
- Health and ambulance insurance details.
- Notes and other care instructions.

You will soon be sent an email from the CareMonkey system inviting you to enter your child’s details on an electronic medical form. To enable your child to attend the Transition Day on December 5th, please complete this process by Monday, November 28.

This information is considered confidential, and will only be available to the staff members caring for your child during excursions and camps. You may also choose to share this information with anyone else you trust with their care – relatives, close friends, child-minders etc.

Please feel free to contact the college if you have any questions. You can also visit the CareMonkey website: www.caremonkey.com.

Yours sincerely,

Kate Fogarty
Principal
